**GNAS TEAM HEAD-TO-HEAD TOURNAMENT**  
Lilleshall NSC — Sunday 27<sup>th</sup> June 2004

**COMPETITION FORMAT (1)**

*In our first Olympic round team head-to-head competition, in 2002, we made some minor adjustments to the format set out in the FITA rules to make it more relevant to the domestic context. This experimental event proved such a success that we are repeating it on the same basis. We hope that archers will continue to treat it in the spirit intended: an opportunity to have fun and participate in an exciting form of competition.*

**GENERAL**

The entire competition will be shot at 70m on the 122cm target face. All arrow holes are to be suitably marked at all stages of the competition in case of bouncers/pass-throughs.

**FIELD LAYOUT AND PRACTICE FACILITIES**

There will be 20 targets to the *left* and 32 to the *right* of the floodlight stanchions. All 52 targets will be used for the ranking round, and for the pre-competition practice period. During the afternoon's Olympic round head-to-head, all competition will take place on the targets on the right-hand side of the field. The targets on the left-hand side of the field will be available for practice, under the same time control as the competitive matches.

Before the head-to-head stage begins, competitors will also be given the opportunity to practice shooting together as an Olympic round team. (See "SHOOTING PROTOCOL".)

An additional practice field, across the road from the main field (near the camping area), will be available for use on Saturday evening / Sunday morning with bosses set at 70m.

**TEAM COMPOSITION**

Olympic round teams comprise **three archers**. Normally there would be four categories, as for the individual head-to-head, but to deepen the match-play schedule there will just be **two divisions**: archers shooting recurve bows, and archers shooting compound bows. (Within each division, all archers will compete together regardless of age or gender.)

**TEAM ALLOCATION**

To create a level playing field for the competition, the organizing committee will **allocate archers to teams** of roughly similar combined standard (based on their track record / expected performance at 70m, plus a hint of randomness). This policy should ensure that all entrants will have the opportunity to participate in a reasonably competitive team on the day, whether or not they had a chance to identify prospective team-mates in advance.

We hope to have sufficient stand-by archers (drawn from the work party, if necessary!) available in case we need to make up either division's final team to a full complement.

To give them a chance to get to know each other's shooting styles, the resulting teams will shoot together on the same target during the ranking round. Because the format and protocol is likely to be unfamiliar to many entrants, and the time limit is unusually tight, we will also make time available for competitors to practice shooting together as an Olympic round team before the head-to-head stage commences.

*In order to allow as much time as possible for notification of withdrawals, late entries, etc. — all of which require the team allocation process to be repeated from scratch — team / target allocations will not be issued until the evening of Saturday 26<sup>th</sup> June 2004.*

Exception: Team GB members Naomi Folkard, Helen Palmer and Alison Williamson and GB Paralympic Team members Anita Chapman, Maggie Parker and Kathy Smith have asked whether it might be possible for them to shoot together as part of their preparation for the team events at the Athens 2004 Olympic and Paralympic Games.

Given the high profile and importance of these events, the organizing committee are keen to support them in this way, and we are therefore examining how best to accommodate their requests without unbalancing the competition unduly. Again, this will depend on the pool of competitors, which can be known only at the last minute.

GNAS TEAM HEAD-TO-HEAD TOURNAMENT  
Lilleshall NSC — Sunday 27<sup>th</sup> June 2004

COMPETITION FORMAT (2)

TEAM MATCHES

Once the ranking round scores have been checked and sorted, each team will be issued with a personalized scoresheet reflecting their ranking, which will specify when they are scheduled to shoot, and on which targets, for the remainder of the competition. (Teams with a bye, or who are not involved in a particular stage of the competition, may not shoot on the competition targets, but may use the separate practice targets.)

Each match will be shot with one team per target, with their opponents shooting on the target alongside. The two teams competing in any given match should record each other's arrow values, and check and countersign both scoresheets at the end of the match.

The Team Elimination and Team Finals rounds are all 27-arrow matches, shot as 3 ends of 9 arrows (3 per team member) in 3 minutes. (Normally only the top 16 teams compete in the head-to-head stage, but the number of entrants is such that the match schedule will be extended to include  $1/16$  Elimination rounds for both recurve and compound divisions. The highest ranked teams — at the time of compiling the target list, the top 6 recurve teams and the top 8 compound teams — will be granted a bye through their first round.)

In **Team Elimination rounds**, all teams shoot simultaneously with an unbroken 3-minute period in which to complete each 3×3-arrow end. At this event, the **Team Semi-Finals** matches will also be shot in this manner. For the **Team Medal Finals** matches, however, competing teams instead shoot 3-arrow segments in turn. Each team is timed separately, their clock stopping when their archer steps behind the 1m-line after shooting the final arrow of that segment. The other team's clock then starts (or resumes) counting down. The teams alternate in this fashion until each has shot 9 arrows or their time has expired.

If the teams' scores are **tied** (without considering the number of 10s and Xs) at the end of a match, one or more **three-arrow** (one per team member) **team shoot-off(s)** will be used to break the ties. If the teams' shoot-off arrows yield the same total score, each shoots a second set. If those again score the same total, each shoots a third set. If there is still a tie in the third shoot-off, the team with the closest-to-the-centre arrow wins.

SHOOTING PROTOCOL

Of a team's three archers, only one may occupy the shooting line at any time, while the other two remain behind a line marked 1m behind the shooting line. When moving forward to shoot, competitors may not remove their arrows from their quivers until they are on the shooting line. The time clock runs continuously during shooting and changing. Team members may shoot in any sequence, and may shoot 1, 2 or 3 arrows each time they are on the shooting line.

The tight time limit creates the tension and excitement of an "interactive" team event. One waiting archer could spot arrows, for example, while the other could give the shooter advice about the wind, or coaching information, or be preparing him or herself to shoot.

As noted in the "TEAM ALLOCATION" section, the organizing committee will allocate archers to teams. The resulting teams will shoot together on the same target during the ranking round, to give them a chance to get to know each other and their shooting styles. Because the format and protocol may be unfamiliar to many entrants, and the time limit is unusually tight, competitors will also have the opportunity to practice shooting together as an Olympic round team while the ranking round results are being processed prior to the head-to-head stage.

Penalties

If an archer crosses the 1m line too early (before the start signal or before another archer of the team has returned behind the line), or removes an arrow from his/her quiver before standing on the shooting line, his/her team incurs a **time penalty** — the archer at fault must return behind the 1m line and start over (or be replaced by another team member with arrows to shoot, who must also start from behind the 1m line).

Team members who ignore a time penalty by shooting an arrow without first retiring behind the 1m line, shoot an arrow after the time limit has expired, or shoot more than their 3 arrows in an end (even if the team as a whole shoots only 9 arrows in total) cause the team to **lose the value of the highest scoring arrow(s) for that end**.

GNAS TEAM HEAD-TO-HEAD TOURNAMENT  
Lilleshall NSC — Sunday 27<sup>th</sup> June 2004

COMPETITION SCHEDULE

- 8:00 Registration (*all competitors, please*)
- 8:30 Inspection of competitors' equipment by the Judges
- 9:00 45 minutes practice on the tournament field, under control of the Director of Shooting
- 9:45 Assembly
- 10:00 FITA 70m ranking round 12 ends of 6 arrows in 4 minutes – simultaneous  
(Team of three archers per boss, shooting in a single detail)

After the FITA 70m ranking round (approximately 12 noon), there will be a 30–45 minute break while the results are checked, sorted, and teams seeded for the Olympic round head-to-head, with much of this time available for practice on the main field. **No further lunch break will be taken.** Competitors will be given at least 10 minutes notice of when the head-to-head matches will begin.

*Brief assembly — procedure for Olympic round team head-to-head matches*

*(Time will be made available for competitors to practice shooting together as an Olympic round team before the competition proper commences.)*

Should late entries / withdrawals permit a more efficient schedule for the Olympic round matches, a revised order of shooting may be announced on the day. In particular, both divisions will shoot their  $1/16$  Elimination round — phases ① and ② below — at the same time if numbers permit.

- ①  $1/16$  Elimination — Compound 3 ends of 3×3 arrows in 3 minutes – simultaneous
- ②  $1/16$  Elimination — Recurve 3 ends of 3×3 arrows in 3 minutes – simultaneous
- ③  $1/8$  Elimination — both divisions 3 ends of 3×3 arrows in 3 minutes – simultaneous
- ④  $1/4$  Elimination — both divisions 3 ends of 3×3 arrows in 3 minutes – simultaneous
- ⑤ Semi-Finals — both divisions 3 ends of 3×3 arrows in 3 minutes – simultaneous
- ⑥ Bronze Medal Finals — both divisions 3 ends of 3×3 arrows – alternate 3/team segments
- ⑦ Gold Medal Finals — both divisions 3 ends of 3×3 arrows – alternate 3/team segments

*Presentation of awards — trophies for members of 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> teams in each division*

Estimated finishing time: 5:30 p.m.

The following **rule variations** for Olympic round head-to-head matches should also be noted:

- shooting will **not** be stopped for bouncers/pass-throughs, though such arrows may be scored providing that a damaged arrow or unmarked arrow hole can be identified (in such cases, please call for a judge to participate in the scoring);
- similarly, no extra time shall be allowed for equipment failure, but the competitor with equipment failure may leave the shooting line to repair or replace the same and return to shoot any remaining arrow(s) if the time limit permits; other members of the team with arrows to shoot may shoot in the meantime.

(For further details, see the entry form, *FITA Constitution and Rules*, and/or *GNAS Procedure for the Olympic round*.)
